Scarecrow keeps guard over Community Garden

Members of St Alban's Play Group have become active members of our Community garden and participate in regular garden activities and morning teas. The Children decided they would like to make a scarecrow to enhance one of the garden beds and we decided to run a competition to invite Parish and Play Group members to suggest a name for the scarecrow. We were surprised at the extent of interest and over twenty names were suggested. The children finally decide that ***Basil Rustle*** would be a good name to encompass the garden theme (***basil*** to represent the herbs) and ***Rustle*** to represent the rustling of the straw.

Basil Rustle keeping watch over the lettuce in one of our garden beds
